2.1. Style – Chapter 1 EM 2020

Equations should be numbered consecutively starting from one, without reference to the chapter number. The formulas should be centered using TABS or tables (for “professional” equations), such as:

$$m\ddot{x}(t) + b\dot{x}(t) + cx(t) = P(t), \quad (1)$$

$$A + b = EM2020, \quad (2)$$

$$E = \frac{1}{2}mv^2. \quad (3)$$

Use the slanted font for mathematical symbols (where m denotes the mass matrix...).

2.2. Figures and Tables

Figure captions must be placed below the figure written in “Figure EM 2020” style. Table caption is placed above the table in the “Table EM 2020” style. All tables and figures should be referenced in the text, as Fig. 1 and Tab. 1. In tables, use 10pt font and only horizontal lines if possible.
